

AN AI POWERED SOFTWARE-BASED FIRE DETECTION SYSTEM FOR CCTV PLATFORMS.

FiremeX - TEST CASES

AUTOMATION

Document ID	QA-AUTOMATION 02
Project	FiremeX
Tool	Selenium
Language	Python
Task	Authentication-Register Organization & Operator
Prepared By	Jayashini Jayaweera

Test Case ID	Title	Precondition	Test Steps	Expected Result	Priority	Test ID	Test Result
TC-REG-01	Verify sign-in link navigation	Registration page is open.	Click Already have an account? Sign in.	Navigates to the login page.	High	test_TC_REG_01_verify_already_have_account_sign_in_link	Passed
TC-REG-02	Verify back button returns to selection	Registration page is open.	Select Organization registration; click the back button.	Returns to the registration-type selection screen.	Medium	test_TC_REG_02_verify_back_button_is_clickable	Passed
TC-REG-03	Verify organization fields, formats, password visibility, and submission	Registration page and registration backend are available; use a unique email address.	Open Organization registration; enter organization name, email, contact number, administrator name, and matching passwords; select sector and country; verify email and phone formats; toggle password visibility; submit.	Fields accept input; formats are valid; both password fields toggle visibility; a success toast includes the organization name and code; the app navigates to login.	Critical	test_TC_REG_03_verify_organization_registration_fields_and_eye_toggle	Passed
TC-REG-04	Verify required fields prevent empty submission	Registration page is open.	Open Organization registration; submit the empty form; check the organization-name field's validity.	Empty required fields prevent submission through disabled-button or native form validation behavior.	High	test_TC_REG_04_verify_registration_button_disabled_when_fields_empty	Passed

TC-REG-05	Register an operator for an organization	Registration page and registration backend are available.	Register an organization; capture its code from the success toast; open Operator registration; enter that code, operator details, matching passwords, and a reason; submit.	Organization registration succeeds; operator request receives a success toast stating it is pending administrator approval; the app navigates to login.	Critical	test_TC_REG_05_register_as_operator_for_organization	Passed
TC-REG-06	Verify mismatched passwords show an error	Registration page is open.	Open Organization registration; fill required fields with different password and confirmation values; submit.	An error toast says Passwords do not match; the page stays on registration and does not submit.	High	test_TC_REG_06_mismatched_passwords_show_error_toast_without_submitting	Passed
TC-REG-07	Verify the contact number format against the user input country	Registration page is open.	Open Organization registration; fill required fields with the country as united state & contact Number as +94 77 123 4567 ; submit.	An error toast says Contact number format is mismatch with the country format	High	def test_TC_REG_07_reject_phone_number_that_does_not_match_country	Passed
TC-REG-08	Reject invalid organization code format	Operator registration form is open; a registered organization is available.	1. Enter an organization code that does not match ORG-000 format. 2. Fill the remaining required fields with valid values. 3. Submit the request.	An error message is shown, the registration page remains open, and no operator registration request is sent.	High	test_TC_REG_08_reject_operator_invalid_organization_code_format	Passed

TC-REG-09	Reject invalid operator email format	Operator registration form is open; a registered organization is available.	1. Enter a valid organization code. 2. Enter an email that does not match name@domain.com format. 3. Fill the other required fields with valid values. 4. Submit the request.	An email validation error is shown, the registration page remains open, and no operator registration request is sent.	High	test_TC_REG_09_reject_operator_invalid_email_format	Passed
TC-REG-10	Reject mismatched passwords	Operator registration form is open; a registered organization is available.	1. Fill the required fields with valid values. 2. Enter different values in the password and confirmation fields. 3. Submit the request.	A password mismatch error is shown, the registration page remains open, and no operator registration request is sent.	High	test_TC_REG_10_reject_operator_mismatched_passwords	Passed
TC-REG-11	Reject empty required fields	Operator registration form is open.	1. Leave the required fields empty. 2. Submit the request.	A validation error is shown, the registration page remains open, and no operator registration request is sent.	High	test_TC_REG_11_reject_operator_empty_required_fields	Passed

Evidence

```

PS D:\QA-FiremeX\Automation> python Registration.py
.....
-----
Ran 7 tests in 30.495s

OK
